CREATE THE PERFECT ENTRANCE

WHY ROCKDOOR?

Your front door welcomes you home at the end of your day. It's a first impression, a stylish entrance and provides sanctuary against the outside world. If you're looking for a high performing, stylish door that will transform your home and keep your family safe, think Rockdoor.

For over 20 years, Rockdoor has played a leading role in composite door technology. Rockdoor's comprehensive collection of door styles, colours and glass designs has been carefully developed to provide the ultimate in style and thermal performance.

Rockdoor's goal has always been to manufacture the most secure composite door on the market. Rockdoor's finely tuned design features work together to provide both security and high performance.

Rockdoor's exclusive S-Glaze technology locks the double-glazing into your door for life, preventing forced entry by removing the glazing bead.

Rockdoor boasts the thickest composite door at 50mm. High impact uPVC skins and an aluminium reinforced inner frame makes cut-through by intruders almost impossible.

Other key features for superior strength and security:

- Solid steel hook locks and deadbolt engage into full length steel keeps within the reinforced inner frame.
- 3* diamond cylinder as standard, preventing forced attack.
- Optional Steel Security Mesh enclosed within the door sash prevents cut-through.
- Toughened glass as standard, with the option to upgrade to laminated glass, often in accordance with Secured By Design.

Our industry-leading, 5500ft² showroom displays over a dozen Rockdoors. Ranging from traditional to contemporary in style, each Rockdoor showcases various glass and furniture options. Our friendly team will be on hand to answer any questions you have, in a relaxed, no-pressure environment.

At Alexander Windows, our business is founded on trust, exceptional knowledge and a portfolio of industry-leading products. All installations are carried out by our own fully employed installation teams. Peace of mind comes as standard with Alexander Windows.

COLOUR OPTIONS

VIBRANT COLOUR, INSIDE AND OUT

Rockdoors are available in 14 colours so you can choose what's right for you. Each colour features a textured wood grain effect to make it look like a timber door.

As Rockdoors are made-to-order and not cut-to-size, all colours are available inside and out. Please check our colour swatches before ordering and use the door visualiser at rockdoor.com to see what is possible.

FURNITURE OPTIONS

STANDARD FURNITURE

Rockdoor's standard furniture options are available in Polished Chrome, Graphite, Polished Gold or Midnight Black, unless otherwise stated.

Lever/Lever
(Standard handle)

STAINLESS STEEL FURNITURE

Fabricated with with marine grade stainless steel, Rockdoor's stainless steel furniture guarantees smooth and contemporary sophistication. Each door handle style comes with a standard or off-set fixing.

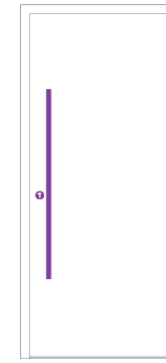

Round Bar Handle with Switch Latch

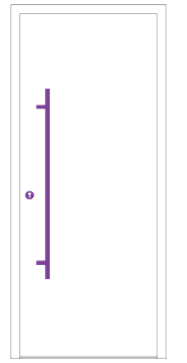

Off-Set Round Bar Handle with Switch Latch

Square Bar Handle with Switch Latch

Off-Set Square Bar Handle with Switch Latch

Stainless steel bar handles are available with the Dakota, Indiana, Vermont and Vogue styles. Indiana and Vermont have minimum width size restrictions.

SWITCH LATCH
The best of both worlds

Switch Latch allows you to set your lock so the latch secures the door in place when opening and closing (in a similar way to how a split spindle or night latch operates). Alternatively, you can set it to open and close freely like a roller latch.

GLASS OPTIONS

3D GLASS - UNIQUE AND EXCLUSIVE TO ROCKDOOR

CLEAR

Clear designs feature a combination of sandblasted effects and clear glass to create the ultimate in 3D design. Available with: Vogue Cube (inward effect), Vogue Optima (outward effect), Vogue Archer (inward effect), Vermont Continuity (inward effect) and Jacobean Border (outward effect).

Pictured below: Vermont Continuity (left) and Clear glass (inward and outward gaps) (right)

OBSCURE

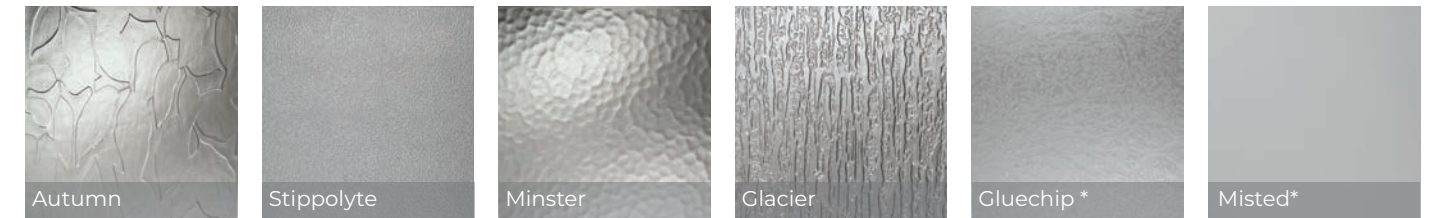

Clever combinations of sandblasted and stippolyte glass provides stunning 3D effects, with the benefit of privacy. Available with: Vogue Haze, Vogue Shade, Vogue Fluid, Vermont Haze, Vermont Shade, Jacobean Shade, Jacobean Fluid and Newark Iris.

Left: Vogue Shade | Above: Fluid

OBSCURE BACKING GLASS

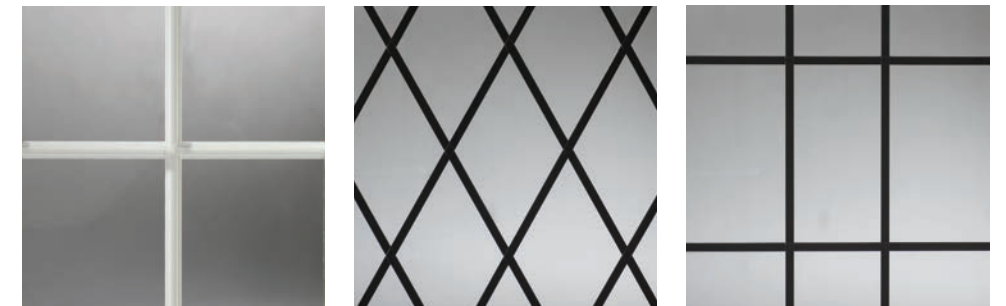

We offer a selection of six attractive obscure backing glass options. Please remember that choosing an obscure backing glass in replacement of clear glass will reduce your Door Energy Rating. The Door Style Gallery indicates designs featuring Gluechip glass, where we recommend using a specially coated clear backing glass. Both Gluechip and Misted are bespoke and therefore attract an additional cost.

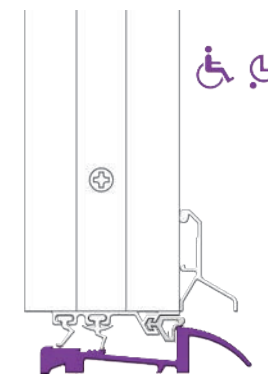

LAMINATED GLASS

If you're looking to increase the security of your Rockdoor further, consider upgrading to laminated glass. Consisting of two layers of glass bonded together with a polymer, laminated glass holds together when shattered, keeping you and your home safe.

Georgian Bar, Diamond Lead and Square Lead are available in some but not all doors styles. If this is a feature you'd like to include, please ask us which styles accommodate these options.

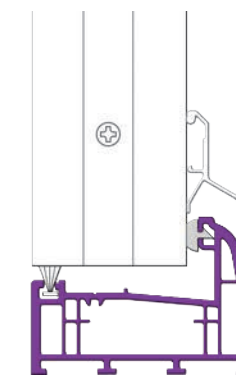

DOOR THRESHOLDS

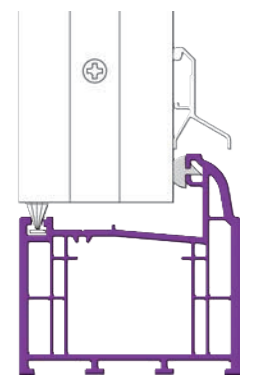

Low Aluminium Threshold

Raised by just 15mm from the floor, a low aluminium threshold provides convenient access for prams and wheelchairs, whilst ensuring maximum thermal performance.

Slim uPVC Threshold

Raised by 50mm, the small step still provides easy access. The seal ensures maximum thermal performance, whilst suiting carpeted entrances.

Full uPVC Threshold

Raised by 70mm, the larger step may be required by your door survey. The seal ensures maximum thermal performance, whilst suiting carpeted entrances.
